Education

Mohan Babu University   Oct 2022 – May 2026
B.Tech in Computer Science Engineering   *Tirupati, A.P*

Projects

Interactive Portfolio Website | HTML, CSS, JS   **Feb 2024**
- Designed an intuitive and visually engaging blogging platform using HTML, CSS, and JavaScript, ensuring a seamless user experience across all devices.
- Incorporated dynamic features such as post creation, categorization, and comment sections to enhance user interaction and content management.
- Applied responsive design principles, optimized performance, and improved accessibility to enhance readability and user engagement.

Soul AI | HTML, CSS, JavaScript, Bootstrap   **Nov 2024**
- Replicated a mobile payment UI with responsive components and real-time form validation.
- Maintained consistent styling and transitions for a smooth user experience across all devices.

Punch.io | ReactJS, JavaScript, HTML, CSS, Node.js, Express.js, MongoDB, Vercel, JWT Authentication   **2025**
- Built a multi-role full stack web application with robust architecture supporting three user types — Students, Shop Owners, and Admin — each having tailored access and features for seamless role-based interaction.
- Enabled live shop status updates where shop owners can "punch in" to indicate availability, allowing students to check which stores near Mohan Babu University are currently open.
- Utilized Cloudinary for shop image hosting, integrated optional Socket.IO for real-time updates, and built an admin dashboard for user and shop management.

Skills

Languages: Java, C, HTML, CSS, JavaScript (ES6+)

Tools & Libraries: ReactJS, CSS, Git, GitHub, Figma, VS Code, NetBeans, Eclipse

Cloud/Platforms: AWS Basics, Vercel, Salesforce Lightning

Design: Canva, UI Layouts, Responsive Design, Typography, Prototyping

Soft Skills: Communication, Teamwork, Presentation, Project Coordination, Time Management, Conflict Resolution

Certifications

— AICTE AWS AIML Virtual Internship — Hands-on AI/ML models and applications (2024)

— IBM SkillsBuild AI Internship — Built and deployed real-world AI solutions AI Agents (2025)

— MePro English Proficiency Certification — Advanced Speaking Score (2024)

— Soft Skills Professional Training — Communication, leadership, adaptability (2023)

— Xhorizon Hackathon — Built "SoulMate.AGI": Emotion-aware AI companion using Gemini API, HTML/CSS/JS, and PHP (2025)

Achievements

IBM SkillsBuild AI Agents Program   **Jul 2025**
Team Core Member — Product Design Focus
- Led a 5-member team through ideation, prototyping, and deployment of AI-based projects.
- Enhanced collaboration, mentorship, and applied ML concepts in real-world problem-solving.
